

Cutting Belts & Cutting Boards

HAWKES

Hawkes offer a wide range of cutting surfaces including: Hardened steel, stainless steel, brass, card and plastic but the most commonly used cutting surfaces are cutting boards and cutting belts.

Hawkes high quality cutting boards and cutting belts offer you the best value for money at the most competitive prices with many items available direct from stock for fast delivery to our customers. We pride ourselves on the long established reputation we have for fully supporting our products & services.

Innovative Supplier of Cutting Presses and Systems since 1975

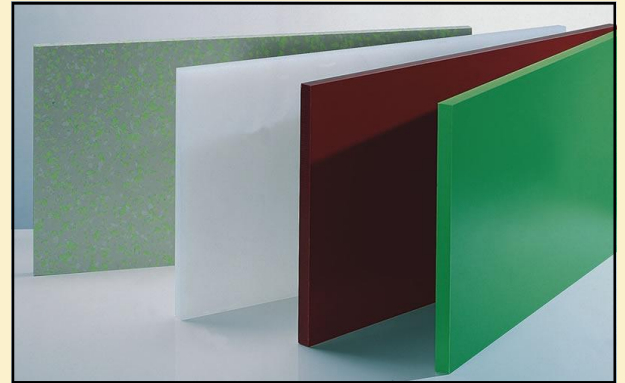

Innovative Supplier of Cutting Solutions since 1975

Cutting Boards

We offer you best value for money & the most competitive prices for our unique formula long life quality cutting boards suitable for the widest range of applications. Designed for high impact resistance, maximum accuracy & stability. The high level of durability ensures you achieve the best cutting results even on your toughest materials. High Quality Cutting Boards increase the life of your cutting tools, quality of your cut parts and improve your production speed. We stock a large quantity of boards and also offer a re-planning and bonding service. We aim to respond to your enquiries quickly and efficiently. For advice on which is the best board for you please do not hesitate to contact us.

Cutting Belts

We offer high quality cutting belts for maximum life and durability. Our belts can be supplied with standard nylon top surface or top surface removed for minimum contamination of cut parts. Cutting belts are most often used on cutting systems for feeding non-rigid or difficult materials in and out of the press cutting area to achieve maximum productivity and clean cut components. Most often used when high volume production is required. Our prices are very competitive and we supply many belts direct from stock. The fastest possible delivery times are our aim along with competitive prices. We also offer a full belt fitting & machine checking service. We fully support all cutting belts we supply and are pleased to give end user references for the quality of our products and support on request.

Hawkes showroom facilities
